Search for Items in the Library

Use the following links to help you find books or other items in the library.

📚 Library Catalog

This online resource provides a quick keyword search for any title in our collection (currently running about 60,000+ volumes). If LCCC does not have the item you need, you can use our Interlibrary Loan services (http://depts.luzerne.edu/library/ill.jsp) for both books and articles. You can also find items at other local libraries and borrow from them using your current semester LCCC Student ID card. Some libraries might have more requirements. More information about this can be found on our Library Services page (http://depts.luzerne.edu/library/services.jsp), or you can discuss borrowing materials from other institutions with one of the librarians.

📚 Library of Congress Classification

This link provides information on how books are organized at our library. We use the Library of Congress Classification System. (http://www.loc.gov/catdir/cpso/lcco/)

📚 My Account

This link allows you to navigate to the login screen for your account with the Library, showing you the books you've checked out, the holds that you have on library items checked out by other library users, and the fines you may need to pay for overdue items. To login, you will need to enter your Borrower barcode #, which may be found on the back of your LCCC library card. If you do not have a free LCCC library card, you would like one, and you are a current student at LCCC, a current instructor or staff member, or a Luzerne County resident, please visit the library's circulation desk to obtain this valuable resource.

NEW: You may now renew the items you have checked out online as long as nobody else needs what you have checked out. That's right! Now you don't even have to call us or come into the library. Just login to your account, click on 'Checked Out' link on the My Account tab, and renew the items you have checked out as needed. As always, you may only renew items once before you'll need to return them to the library.

The best way to access your account is to click on the ‘Library Catalog’ link on the library’s Home page (http://depts.luzerne.edu/library/index.jsp) or on the Library Items page (http://depts.luzerne.edu/library/catalog.jsp). As a backup, you can also type in the Web address below:
New Books

This page provides you with quarterly lists of materials purchased by the library during the last year. (http://depts.luzerne.edu/library/catalog/newbooks.jsp)

Periodical Holdings

This document lists LCCC's periodical holdings by both title and subject. It includes both current print subscriptions as well as archival microfilm holdings. Updated 8/28/2012. (http://depts.luzerne.edu/library/resources/periodicalholdings.pdf)
